Connecting realities, building perspectives

June 2026

1 Monthly Policy Review June 2026

2 Design Innovation in India

The goal was to identify the opportunities and challenges for design innovation among US and Indian companies, professionals and consumers, and to create a framework for a successful partnership.

3 Thrown Away at Salons, Human Hair Is Now Helping Clean Polluted Water Before It Reaches the Yamuna

Kesakambali Foundation is transforming donated human hair into oil-absorbing mats that intercept pollutants before they reach the Yamuna. The initiative has recycled over 1,000 kg of hair, reduced key pollution indicators by nearly 40% and created a zero-waste cleanup model.
